

	Integrated management system	
	Quality Policy	Sheet 1 of 1

APPROVED:

General Manager

January 22, 2026.

StepanPrilutskii

MECAMI FOR OIL AND GAS FIELD SERVICES strives to ensure impeccable quality and reliability in hydraulic fracturing (HF), coiled tubing (CT), and well completion services. Our mission is to continually improve processes and services to achieve the highest industry standards.

MECAMI FOR OIL AND GAS FIELD SERVICES ASSUMES OBLIGATIONS:

1. Strict compliance with all regulatory requirements and standards:

- Strict compliance with legal requirements and industry standards, ensuring that all work performed complies with established standards.
- Regular updating of internal regulations and procedures in accordance with changes in legislation and industry practices

2. Continuous improvement of processes and technologies:

- Implementation of innovative methods and technologies to improve the efficiency and safety of work
- Conducting regular analysis and optimization of production processes.
- Use of modern tools and software for quality management.

3. Satisfying the needs and expectations of our customers:

- Focusing on the needs and expectations of our customers, ensuring high quality work.
- Compliance with contractual obligations, completion of work on time.
- Provision of complete and reliable documentation on the work performed.

4. Implementation of a system of continuous improvement of quality and productivity:

- Regular internal audits and assessment of the quality of work performed.
- Collecting and analyzing feedback from customers and employees for continuous process improvement
- Investment in staff training and equipment modernization
- Setting and achieving measurable goals to improve quality and productivity.

We are confident that fulfilling these obligations will enable us to consistently provide high-quality services and strengthen the trust of our clients.
